

JOHN AND JANE SMITH'S RESIDENCE  
Brookwood, Prince George's, Maryland<sup>1</sup>

4 of 8 properties of John Smith in Prince George's County, Maryland<sup>2</sup>

Current location of John and Jane Smith's lands<sup>3</sup>

1 Respectfully researched and submitted: Beth Golden, Jane's 8th great granddaughter; Decatur, GA, 10 July 2020  
2 Hinton, Louise Joyner. <http://sites.rootsweb.com/~mdpgeorg/text/1696-land-recs.txt> accessed 6 July 2020 cropped and annotated  
3 Google Maps accessed and annotated 6 July 2020

Satellite Detail: approximate center of John Smith's Land  
GPS coordinates 38.736820, -76.730423

[Note: both Mataponi Creek and the above pond/swamp are likely much smaller today than during Jane and John Smith's time, 1680-1713]

### Property Map

The property is now owned by William M. Halterman, II et. al. who purchased a 12.71 acre portion of John Halterman's land on 10 January 2007 for \$13,001. It has a 2020 tax assessment and land valuation of \$2,300. The land is designated as a protected wetland<sup>4</sup> and tree conservancy<sup>5</sup> area. John Halterman received 106.92 acres on 13 January 1954, which is currently assessed at \$326,300 and land valued at \$106,400.<sup>6</sup> This was likely a Last Will bequest or gift as no money changed hands.

By happenstance I discovered that about ¼ mile or so further south, Francis Beall owns land. He is possibly a descendant of Ninian Beall who owned land in the general area at the same time as John and Jane Smith. Since Brookewood was bequeathed to Jane in his Last Will (1704) and then to his nephew John Bowie, upon Jane's death, there **may** be a later family connection between Beall and Bowie that leads to Francis Beall.

4 Designated PFO1A Palustrine (P), Forested (FO), Broad-leaved Deciduous (1), Temporarily Flooded (A).
