THE ENTERPRISE, ANSELMO NEBRASKA.

FROM CREDIT TO CASH
ON AND AFTER FEBRUARY 1, 1919
We Will Sell For Cash Only
CRITS EQUIALENT.
CREDIT NO LONGER NECESSARY

First, because custom demanded it; second, because when the business began business and banking facilities were very limited. Farm products were not as readily turned into cash and not nearly as often as now. Banks were weaker and more widely separated. Money for those reasons was scarce. Men of those times testify that they were forced to do without ready cash for months at a time. During such times goods could be bought only on account, then the book accounts was more than an accommodation—it was a necessity.

But it is no longer a necessity. It has even come to be a burden on the customer as well as on the merchant. All know that times have changed greatly in the last twenty years. Money is more plentiful and ready cash can be more easily secured at any time.

The laborer gets his pay as soon as he has earned it, and when the farmer sells his products he gets the cash, the time of long deferred payments is past.

The main trouble with the most of us is, we are living one month or more behind. Let's try living thirty days ahead and not be c...ed at the end of the month with a lot of bills that are mighty hard to meet.

We know that a large majority of you who are reading this announcement of our change, are already of the opinion and will be glad to welcome the advent of a store with a cash system. We expect to prove to you that we can sell goods for less on our absolute cash plan.

Yours for a saner, safer, more satisfactory and more economical business.

Yours for a money saving system

Willams & Taylor.

"We very much appreciate your services," said the young lady. "I can hardly understand why you should be so interested in us. You don't get anything out of this, do you?"

Oh, yes, I do," replied the circuit clerk. "I get $5 for every divorce."

News reaches that George Butcher of Milburn met with a very distressing accident, while returning home from Broken Bow Wednesday. He was driving along in his car when he struck a piece of road running up a steep hill his car was unable to make the grade and began going backward. He stayed with the car trying to get it under control, when the hindwheels struck a washout and the car turned over backward. Mr. Butcher was painfully injured about his hips and received some bruises otherwise. He was taken to Broken Bow, where he received medical attendance and is reported coming along as well as can be expected.

George Milligan we are sorry to learn has been confined to his home with illness for three weeks. At first it was thought that he had an attack of flu, but later developments proved it to be rheumatism. At this writing he is considerable improved and we hope he will soon be able to be about as usual.
